SP Pastoral

Demonstration Day Biosecurity Plan

---

1. Purpose

SP Pastoral operates working cattle properties. This Biosecurity Plan outlines the **practical, proportionate measures** in place for demonstration days, site visits, and industry inspections.

The objective is to:

- Protect livestock health and welfare
- Maintain biosecurity integrity
- Enable safe, effective demonstrations
- Ensure visitors understand and respect operational boundaries

This plan is designed to manage **real risk**, not create unnecessary barriers to engagement.

---

2. Site Details

The Gallery Farm
56 Ptolemys Access Collombatti NSW 2440 Australia 0423 092 491

Site Connectivity:
Wi-Fi coverage is available at the property entry gate to allow visitors to complete registration or review site guidance if required.

---

3. Scope

This protocol applies to:

- Demonstration days
- Industry and technical visits
- Council and stakeholder inspections
- Agricultural show follow-up visits

This protocol **does not apply** to:

- General accommodation guests
- Non-operational areas
- Public viewing areas not associated with livestock handling

---

4. Core Biosecurity Principles

SP Pastoral applies a **risk-based biosecurity approach**, including:

- Controls are proportionate to risk
- Higher controls apply to livestock handling areas
- Lower controls apply to general viewing and demonstration zones
- Livestock movements and handling remain the primary focus of biosecurity management

---

5. Visitor Confirmation (Pre-Arrival)

All visitors attending demonstrations or site visits are required to complete the **Demo Visit Confirmation & Biosecurity Acknowledgement** prior to arrival.

By submitting the form, visitors confirm that they:

- Understand this is a working cattle property
- Will follow staff directions at all times
- Will respect signage and restricted areas
- Have declared whether they have visited another cattle property on the same day

This confirmation forms part of SP Pastoral’s visitor management record.

Visitor Movement Process

SP PASTORAL

Demonstration Site Visitor Flow

PRE-ARRIVAL REGISTRATION

- Register online & confirm biosecurity rules
- Receive map, parking & guidance via email

PROPERTY ENTRY

Biosecurity notice

- Enter at main gate
- Follow biosecurity signage

VISITOR PARKING

- Park in designated area
- No vehicle access beyond parking

ORIENTATION POINT

- Orientation briefing by staff
- Follow signage & staff instructions

DEMONSTRATION AREAS

- Access designated viewing areas only
- Restricted areas clearly marked

EXIT

- Return to parking area
- Exit via entry driveway

Please remain in designated areas, follow signage & staff instructions.

6. Visitor Requirements (On Arrival)

Visitors are requested to:

- Arrive in clean footwear
- Follow all on-site signage and staff instructions
- Remain within designated visitor and demonstration areas
- Avoid entering livestock handling areas unless specifically directed

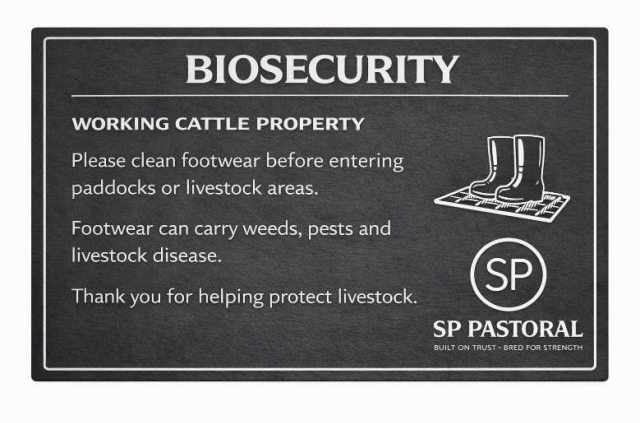
Visitors who have visited another cattle property on the same day may be subject to **additional access restrictions** at staff discretion.

---

7. On-Site Biosecurity Controls

7.1 Footwear

- Boot brushes and disinfectant spray are provided at yard entry points
- Use is **encouraged, not enforced**
- Entry to livestock handling areas may be restricted based on assessed risk



7.2 Movement Restrictions

- Visitors must remain in designated demonstration and viewing areas
- No access to:
  - cattle races
  - forcing pens
  - loading ramps
  - crushes

  unless approved and supervised by staff
- Children must be supervised at all times

7.3 Vehicles

- Visitor vehicles are restricted to **designated visitor parking areas only**
- No paddock, laneway, or livestock-area driving
- Contractor and operational vehicles operate under separate internal protocols

---

8. Livestock Biosecurity (SP Pastoral Operational Controls)

Independent of visitor activity, SP Pastoral maintains higher-level livestock biosecurity controls, including:

- NLIS identification and movement recording
- Known-source cattle only
- Controlled inter-farm movements
- Internal livestock transport protocols (where applicable)
- No commingling with unknown livestock

These measures operate continuously and are **not reliant on visitor compliance**.

---

9. Signage and Physical Controls

Biosecurity and visitor management signage is installed at:

- Property entry points
- Visitor parking areas
- Livestock handling zones

Signage includes:

- Biosecurity notices
- Restricted access warnings

- Visitor parking direction signs

Visitors are required to follow all posted signage.

---

10. Acknowledgement

By submitting the Demo Visit Confirmation & Biosecurity Acknowledgement form, visitors confirm that they:

- Have read and understood this Biosecurity Plan
- Agree to comply with site access restrictions
- Will follow all staff directions during their visit
